

Collaboration

# This is how everyone can learn to code

In this post, we have discussed **5** different ways to learn coding as a **Newbie**.

Collaboration

# Side Projects

5

Start Simple.

Build a small page or App.

Collaboration

# Experiment with Open Source

4

Pick a language and project of your choice.

Contribute to it, even if it's a small feature.

Collaboration

# Startups

3

Network with teams that  
are willing to give you a  
chance.

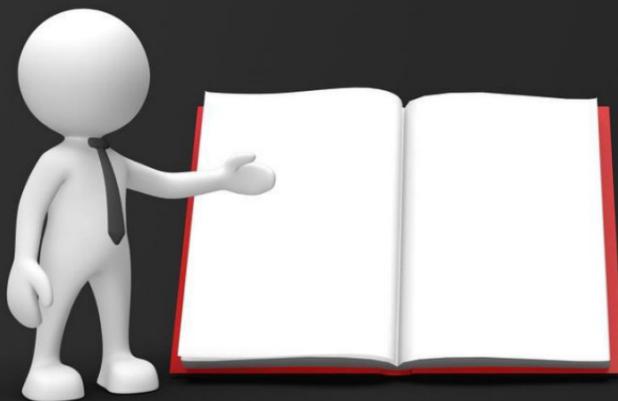

Make learning a way of  
life.

Collaboration

# Books & Courses

Use books or videos as sources to learn.

Apply the knowledge in projects.

Collaboration

# Find a Mentor / Community

Partner up with someone experienced.

Join communities that can help you.

Collaboration

# Hope you liked it :)

In case you're new here, I'm Harshad and it's my job to help you with web development.
